

Kid's Kingdom

October Newsletter for After School 2018

Here we are, already in October!! We have so many things planned for this month. But first... just a reminder! With the weather changing and becoming cooler with the arrival of Fall, your child needs to be dressed accordingly, that means a jacket or sweater for when we go outside. Also, homework club continues daily from 3:30-4 pm. If you have any requests or concerns, please feel free to talk to one of the teachers.

*****Please note: Monday, October 8^h is Columbus Day and Kid's Kingdom will be closed.**

The first week of the month we will focus on leaves. We will be making some great crafts using leaves, such as a leaf catcher, tin foil leaf prints and painting leaves. We have a great science project too!....How does a leaf get water? It'll be interesting to see what the results are.

The second week we will focus on Fire safety. We will discuss how we can stay safe in a fire emergency and when to call 911. Our craft will be making a tissue paper fire art and doing a fire safety word search. Our science project.... our favorite... playdoh!!

The third week we will focus on community helpers. We will talk about who they are and how they help us. Our crafts will be making a chef's hat, a fake cast, and an x-ray. Our science project will be carving a pumpkin.

The fourth week we will focus on pumpkins and Halloween. We will learn how to safely trick or treat and will be making witches, mummies and ghosts. Our science project will be making Pumpkin Gak!!

The fifth week we will focus on family. We will talk about family dynamics and the people in our family. Our crafts will be making a family tree keepsake and a family portrait.

As always, Fridays will be reserved for special things. Toys from home may be brought in on that day, the game side will be open and we will have special movies and snacks.

This promises to be such a fun month we can't wait to get started!!!
