

Kids Kingdom

June Newsletter for Afterschool Program

Can you believe another school year has come to an end? Soon it will be summertime, sunshine and fun here at Kids Kingdom! **Parents.....** please remember to start sending in sun-block for your child as we will be spending a lot more time outside. Applying sun-block helps to keep your child safe from the harmful rays of the sun. Please put your child's name on everything.

Reminder... Kids Kingdom will be closed the Week of the 4th of July, for our summer vacation.

We have a ton of fun things planned for this month. The first week of the month will focus on graduation and fun art. We will be making paper pinwheels, bird feeders and a worksheet on What I Loved This Year. For our science project, we will make a hanger balance. Sounds like an interesting project!

The second week will focus on Men in our families. We will be making some special crafts..... we won't tell you what so that you will be surprised when you get them!

The third week will focus on summer fun. We will be making some really cool crafts! There will be a paper plate fan, sponge ball, and a paper spinner. Our science project will be a soap cloud. Hmmm.... wonder what that is??

The last week will focus on Independence Day and the great country we live in. We will make a patriotic wind catcher, a windsock and 4th of July noisemakers. We will top off the week by making our favorite thing...Playdoh!

As always, Friday is the day children are allowed to bring in toys from home. We will continue to do special activities, have special snacks and watch a movie.

It's been a great school year and now it is time to **Bring on Summer!!!**
