

## July Newsletter

### Pre-School Room

Summer is here!! Just a quick note, now that the warmer weather is here please bring in a bottle of sunblock for the summer months. We want to make sure everyone is protected from the strong sunrays! Kid's Kingdom will be closed from July 2<sup>nd</sup> – July 6<sup>th</sup>. When we return we will be doing water play Tuesdays and Thursdays. Please bring your child in with a bathing suit and towel (labeled), we will return them every Friday. We also ask that you please bring in a water bottle for your child to leave at Kid's Kingdom for the summer.

The month of July is our time to review all that we have gone over. We will be reviewing letters A-z, numbers 0-20, all the shapes and of course the colors of the rainbow! Some of our RIELDS goals for the month of June are as follows: Math- count objects in groups of 1-20, Literacy- recognize some letters in the alphabet especially those in their name, Language Development-follow a two step direction, Physical Health-help in mealtime routines, Cognitive Development-solve simple problems without trying every possibility and Science- investigate the prosperities of natural elements and provide simple descriptions.

The first theme for July is Camping! We will be making s'mores (yummy) and telling stories around our pretend campsite! The next fun theme we have is Reptiles!! We will be making paper plate snakes, water coloring iguanas and making lizard skin! The last theme we have for July is Christmas in July!! We will be turning our room into a Winter Wonderland! We will make snowflakes, Christmas trees and hopefully will even get a visit from our Elf, Freddie!!

We are looking forward to a fun-filled summer!!

Just a friendly reminder, Kid's Kingdom is closed July 4<sup>th</sup>-8<sup>th</sup>. We hope everyone has a fun and safe holiday!

Mrs. Kayla

Miss Willy

Parenting Tip: Firework safety is very important to discuss with your children around the holiday! Whenever going to enjoy the beautiful colors in the sky, be sure to explain to them the dangers involved.
